How to use

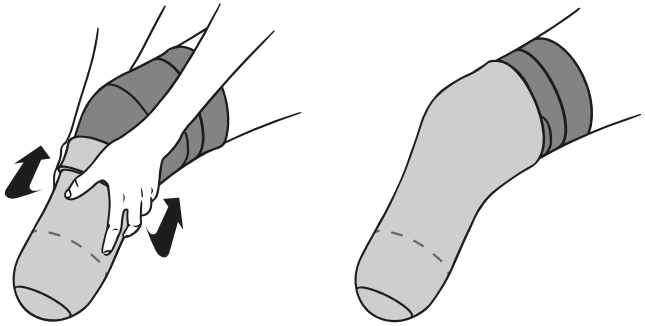

Underlay Transtibial (BK)

User Guide

1. Slide the underlay over your residual limb, ensuring it sits **4 inches / 10 cm** from the distal end.

   Adjust the height to suit your residual limb as needed.

2. Roll your prosthetic liner as usual above the underlay ensuring the underlay extends above the liner.

   Ensure that the breathing part is sitting above the liner extremity

ETHNOCARE™

How it works

Underlay

Moisture wicking

The special knit fabric absorbs humidity from the skin and channels it upward toward the breathable mesh, where it can evaporate more easily.

Stay fresh treatment

Prevents the growth of odor-causing bacteria, keeping your product fresh even in sweat and humidity.

STAYFRESH™
POLYGIENE FRESHNESS

STAYCOOL
BY POLYGIENE

Breathable mesh

The breathable mesh promotes airflow and helps moisture evaporate quickly, keeping you dry and comfortable throughout the day.

Stay cool treatment

Proven to lower fabric temperature by 2–3°C for a refreshing feel.

Washing instructions

Do not use bleach to clean
Wash below 40°C / 104°F
Dry at low temperature
Do not iron.
Do not dry clean.
